Some Day Nations Are Bound to Let Loose -Minimize the Risks but Keep on Guard, His Advice-National Antipathy Theory a "Pernicious Superstition."

Special Cable Despatch to THE SUN. LONDON, July 3.-At a Government banquet to the delegates to the peace congress to-night, Prime Minister Asquith, while cordially approving the efforts of dealists in the direction of peace, from which he augured the best results for the future, said he could not hope that the youngest person now alive would witness the advent of the day of universal disarma-

He was not impressed by the contention that the completeness of the mechanism of destruction and the vastness of the scale on which war now was organized would prevent statesmen and diplomatists from light heartedly indulging in war. The expenditure of civilized nations for armaments was now roughly \$2,500,000,000. The nations did not buy these things for ornaments. They were intended for use, and some day they would be let loose upon the

As long as man's nature continued what it was it would be necessary for prudent statesmen to provide for war. National securify must always have first place in the thoughts and plans of the Government of any country.

Nevertheless no enterprise was worthier than trying to minimize the risks of war. Real progress in that direction already had been made, first by the growth of international agreements such as Great Britain had made in the last two years. He did not advocate alliances, defensive or offensive. They sometimes hindered peace rather than helped it.

The second step in the progress made was the substitution of international litigation for war and, lastly, moral changes. The main thing was for the nations to get

to know and understand each other. It would be grossly understating the case to say that one-half of the international quarrels arose from a lack of understanding. The notion that there are hereditary misms which it is almost a point of pofor to cherish and national antipathies which must from time to time find an outlet in carnage was a permicious superstitition needed to be eradicated not only from the minds of children but of men and of

whole communities. Many forces are already moving in that direction. Travel, intercommunication, international trade and education all helped, but the strongest hope lay in the efforts of international emissaries of peace, such as those gathered at the present congress.

Earlier in the day Mr. Haldane, Secretary of War, and Viscount Falmouth emphasized the need of Great Britain keeping up her armaments, especially her navy, which they said should be maintained at such a standard as would enable her to command the sea against any probable combination

They said that these were not the days when any nation could prudently lessen its national defences. Not that there were any signs of war; on the contrary, they ved that Great Britain, France, Ger many and the United States all understood each other and were on good terms. Still it was the tendency of all peoples to scrutinize their defences, and Great Britain must

GUNBOAT OFF TO HONDURAS. Marietta's Commander to Get Consuls and Inquire What's Up Down There.

WASHINGTON, July 31 .- The Navy Department to-day sent instructions to Com-mander Maxwell of the gunboat Marietta to proceed to Ceiba, Honduras, and bring away the four consular officers whose exequaturs have been cancelled by President

The four Consuls who fell into disfavor with the Honduran administration were Drew Linnard, United States Consul at eiba; his Vice-Consul, and the Consuls

rescentively of France and Spain.

Commander Marwell has been instructed to investigate fully the causes of the trouble. The State Department is not satisfied with the reports that have been coming through diplomatic and consular channels in view of the conflict between their report, and those submitted by Minister Ugarte on behalf of Honduras.

A long mail report received at the Navy Department this morning from Commander Maxwell states the case exactly as it has been explained by Consul Linnard. He says the alleged offence for which President Davila cancelled the exequaturs was the forwarding by the four Consuls jointly to the commandant of the Government forces at Ceiba of the demand of the revolutionary forces for the surrender of the garrison. That it was forwarded without recommendation or comment from the

tionary forces for the surrender of the garrison. That it was forwarded without recommendation or comment from the Consuls is the statement of both Consul Linnard and Commander Maxwell, and the State Department holds that such action did not constitute an offence against the proprieties or a violation of the rule of neutrality.

It was the ordinary method of proceeding to insure the safety of the non-combatants within the town and had the Consuls refused to forward the demand they would have been guilty of dereliction of duty in the opinion of the State Department officers.

Minister Ugarte of Honduras laid before the State Department this afternoon copies of two telegrams he had received from the Honduras Minister of Foreign Affairs giving information as to the causes for dismissing the Consuls. The first reply from Minister of Foreign Affairs Fialtos was as follows:

"Charges unlawful intervention of the was as follows:

"Charges unlawful intervention of the

foreign Consuls in the political affairs of Honduras." This was deemed not entirely satisfactory and the Minister called for additional in-formation. The second message was as

"The Consuls asked the commandant "The Consuls asked the commandant for the immediate surrender of the town of Ceiba. They concealed the place where the revolutionists were. They exaggerated their number. Public opinion is against the behavior of these Consuls, which my Government considers quite contrary to the friendly attitude of the American Government." "FLALIOS." The Minister promises a full report on

EXPELS HOLLAND'S CONSULS. President Castro Takes Another Step

Against the Dutch Government. Special Cable Despatch to THE SUN. CARACAS, July 29 .- President Castro has withdrawn the exequaturs of the Dutch Consuls and Vice-Consuls in Venezuela, and through his Ministry of Foreign Affairs has sent to Holland a list of the "insults"

These include "the offence of Reusthe, Dutch Minister, who was expelled from Venezuela, the failure of the Dutch cruiser Gelderland to salute the Venezuelan flag, the attack upon the Venezuelan Consul at Willemstad, the violation of the consulate there and the desecration of the Venezuelan escutcheon over the door of the consulate."

WASHINGTON, July 31.-The expulsion of the Consuls completes the severance of all diplomatic and consular relations between Venezuela and Holland and is regarded by diplomation representatives here as Castro's answer to the threat of a naval demonstration and possible bombardment of his ports by Dutch war vessels. It is expected that Holland will take similar action with regard to the Venezuelan diplomatic and consular representatives accredited to their Government.

While the Dutch Government has not notified the State Department that it intends to discipline Castro there is a strong feeling in official circles here that the orders to the Dutch battleship to proceed to the Caribbean Sea foreshadows a further naval lemonstration against Venezuela.

To-day being the Moslem Sabbath, his Majesty, as usual, attended the Selamlik at the Hamidieh Mosque, opposite the Yildiz Kiosk. He received a great welcome from the populace, in which there was no discordant note, notwithstanding the disappointment of popular hope that he would hold the ceremony in Stamboul.

The crowd was conservatively estimated at 100,000. It packed every conceivable viewpoint and acclaimed the sovereign and the army.

There was noticeable again what has been one of the most remarkable features of the revolution, the fraternization of all races and religions. Jews. Greeks and Armenians ningled with the Turks and were welcome by the latter. Special Cable Despatch to THE SUR Paris, July 31.—In consequence of the general strike in Paris declared yesterday by the General Federation of Labor in sympathy with the strikers at Villeneuve and the consequent bloody strike demon-strations at Villeneuve and elsewhere caused by the invasion of an army of the Paris strikers, the morning papers to-day clamored for the suppression of the federation as a seditious organization.

All shades of opinion admitted that the situation was intolerable and that it was due to the operations of professional agitators.

The Echo de Paris and other journals have Government authority for the announcement they make that rigorous measures will be adopted, which measures will include the dissolution of the General Labor Federation.

The federation, after a meeting last night lasting till midnight, decided to order yesterday's sympathetic strike to continue. Five officers were wounded in the rioting resterday, including the General in command of the troops, whose patience was finally exhausted by the exasperating fire of the strikers. One of the injured strikers died in a hospital this morning, making

Mr. Guggenheim, who has been away since May I, said he did not expect a material improvement in business until early next year, when some stocks, particularly the low priced coppers, would go higher than they ever had been. Europe would feel the loss of our imports keenly. Conditions on the other side, however, might improve much if India had enough rain to insure good crops and a further betterment should take place in China.

Mr. Walling has been studying social and industrial conditions in France, Finland, England and Ireland. He said he had great hopes for the Socialist movement in Ireland. The Sinnfein, according to Mr. Walling, is actually a socialistic party and destined to be the most brilliant one ever formed in Ireland. The Peasant, Ireland's Socialist paper, Mr. Walling said, was the most successful publication of its kind that he could recall. Sentiment in England among the workingmen from the viewpoint of both Mr. Walling and his wife, who was Anna Strunsky, was drifting toward an independent socialistic movement.

Miss Ward, who hasn't any press agent, rather startled the reporters by announcing as the ship was coming up the bay that she could not find her satchel containing \$300,000 worth of diamonds. She became calm later when the satchel was found under the purser's safe with the jewels undisturbed. Soon after 11 o'clock the party rode out in readiness for the review. Gov. and Harry S. Mousley, the private detective, who are accused of having been in a plot to manufacture evidence against Frank J. Gould in the suit for divorce brought against him by his wife, were held for the Grand Jury yesterday by Magistrate Corrigan. Magistrate Corrigan's action was not

unexpected. Maurice B. Blumenthal, counsel for Mrs. Teal, said that at her trial Mr. Gould would be compelled to testify as to whether he was in the apartments of Bessie De Voe, the actress, in the Glenmore, Fifty-fifth street and Seventh avenue. Mr. Blumenthal added that he would have Bessie De Voe at the trial.

At the hearing of the charges Magistrate Corrigan refused to have anything to do with testimony bearing on the Gould divorce suit. According to Miss Mabel MacCauslan, the chief witness for the prosecution, she was asked to make affidavit that she had seen Mr. Gould in Bessie De Voe's apartments, something she had not seen. Mr. Blumenthal said yesterday:

"We put in no defence before the Magistrate, as Mr. Gould was not required to answer our questions calculated to show that the complaining witness actually did see him in Bessie De Voe's apartments last March; furthermore, we were unable to trace Bessie De Voe and bring her to court.

"If the Grand Jury indicts there will be a trial in General Sessions or the Supreme Court before a Judge and jury, and there we shall break the seal at present on Mr. Gould's lips and bring Miss De Voe to court, with the result that both will be required to testify fully in answer to our questions. McCafferty asked Evans if he prosecuted all persons accused of crime. "I certainly do," replied Evans. "Then why," said McCafferty, "didn't you prosecute the man who hit you in the nose?"

McCafferty made no explanation of his question and Evans ignored it.

Judge Stephens testified that McCafferty had told him he had secured valuable in-

formation from Brown.

"The District Attorney," said the Judge
"wanted me to tell him this information
but I didn't think it was necessary for
him to know. I consented to reduce the entence of the prisoner and it was purely n the interests of justice." Decision was reserved.

CAN'T SELL WHISKEY BY MAIL If the Buyer Is in Georgia, No Matter if You're in Another State.

ATLANTA, July 31.-In a decision on the subject of soliciting orders for intoxicating beverages, handed down this morning by the Georgia Court of Appeals, Judge Richard B. Russell, with the concurrence of the entire court, rendered an opinion that soliciting orders by mail from another State as wel as from another place in Georgia is a violation of the laws of the State of Georgia and any person making such solicitation is guilty of a crime against the State.

In guilty of a crime against the State.

The cese is that of Rose against the State.

Some time ago the plaintiff in error was tried in Bartow county for soliciting orders for whiskey by mail from Chattanoogs.

Tenn. He was found guilty, and appealed.

Judge Russell says that soliciting orders for intoxicating liquors in Georgia by letter or circular is forbidden by the laws of the State, that the solicitation by mail is personal solicitation, that the venue of the crime committed by meil is at the place personal solicitation, that the venue of the crime committed by meil is at the place where the matter transmitted is delivered and takes effect, that the mailing in one State of a letter intended for delivery in another State does not change the law on the subject and that the county where the letter is received has jurisdiction. Judge Russell goes on to say that a State may punish such a violation of its laws without infringing upon the right of the United States Government to control the mails.

HOOFED IT FROM SAN FRANCISCO. Arrival at City Hall Says He Did It in 64 Days, Winning \$25,000 for His Backer.

A tall athletic looking man, who said his name was Walsh and that he was a sergeant in the United States Army, walked the City Hall yesterday and asserted that he had walked all the way from San Fran-cisco. He said that his regiment was sta-tioned at the Presidio in San Francisco and that he got a furlough in order to win a wager he had made that he would walk across the continent in record time.

Walsh declared that he had walked from the Pacific coast in 63 days 23 hours and that the previous best record was 75 days. He had with him several memorandum books containing about two thousand sig-

books containing about two thousand signatures which he said were the signatures of the Mayors or some other executive official of the cities and towns through which he had passed. Acting Mayor McGowan added his name to the list.

The wager, Walsh said, was made by Col. John Wand of San Francisco, who put up \$25,000 with some members of the Golden Gate Athletic Club that he could find a man who could walk from coast to coast. a man who could walk from coast to coast in less than 75 days. Walsh was selected by Col. Rand, so Walsh says, to do the trick, and according to his statements yesterday in the City Hall he did the journey with about a dozen days to spare. Walsh had a long tale of adventures to tell. One of his stories was a description of how he had killed a man in Wyoming who had tried to hold him up.

STRIKE EXTORTION INDICTMENT. Plumber, Accused by Bing & Bing, Is Held

Keefe & Murphy, who was accused by Leo S. Bing of the firm of Bing & Bing of attempting to extort \$2,000 to settle strikes on buildings in which the Bings were interested, was indicted yesterday for attempted extortion.

The witnesses before the Grand Jury were Samuel Herzog, who is employed by the Bings and whitook part in conversations between Murphy and Bing about the settlement of the strikes; Detective Fitzsimmons, who has not appeared as a witness before, and John O'Neill, a walking delegate or business agent for the plumbers' union.

O'Neill was not a witness at the hearing before Magistrate Corrigan, who held Murphy for the Grand Jury, although it was brought out that he had something to do with ordering the strikes on the Bing buildings. It was not disclosed what Fitzsimmons and O'Neill testified to before the Grand Jury.

JUDGE FOSTER'S GRAND JURIES. Went Slow in Indicting and He is Inclined to Take the Credit.

Judge Foster of General Sessions told the two Grand Juries which he discharged yesterday that he noticed that the Grand Juries over which he presided dismissed more complaints than the Grand Juries over which other Judges presided. He remarked that the figures showed that the two Grand Juries for this month had dismissed 25 per cent. of the complaints which inised 25 per cent. of the complaints which had been laid before them. He said that if the instructions which he had given were responsible for Grand Juries not filing needless indictments he felt that he had performed a public service.

The two Grand Juries filed 463 indictments and dismissed 128 complaints.

NOT ENOUGH METHODIST CON-VERTS IN HARLEM.

John Lyall, Who Has Been Conducting Revival Meetings, Has the Rev. George Graff and Brother Taylor Arrested-Wouldn't Give Up His Tent, but It's Gone.

The Rev George Graff, a Methodist reacher, and Joseph Taylor, beth members f the evangelistic committee of the church, were arraigned yesterday before Magistrate House in the Harlem court on a charge of disorderly conduct made by the Rev. John Lyall of 501 West 120th street. They were arrested because of a dispute over the possession of a gospel tent at Claremont avenue and 120th street, where Dr. Lyall has been conducting revival meetings.

It appears that the evangelistic committee, of which John S. Huyler, the candy manufacturer, is treasurer, became dis-satisfied with the small number of converts Dr. Lyall was making at the meetings. The committee sent a letter to him saying that they wanted the tent for other purposes and that he would have to be satisfied with a smaller tent. Mr. Lyall told the committee that

he would not listen to such a proposition and that he would hold meetings in the tent for the rest of the summer. Word came back from the committee that they wanted the tent and they were going to take it. Dr. Lyall replied that the committee would not get the tent if he could The Rev. Mr. Graff and Mr. Taylor, with

truck and attendants, began yesterday morning to tear down the tent poies. Dr Lyall hustled down to the West 125th street station and told his troubles to Lieut. Tierney, who sent Policeman Mayer as a

Tierney, who sent Policeman Mayer as a peacemaker.

Dr. Lyall insisted that the Rev. Mr. Graff and Mr. Taylor must be arrested if they persisted in taking his tent away. They kept on with the Job of tearing down the tent and the policeman arrested them.

"You're a foolish man," said Dr. Graff to Mr. Lyall. "The committee is not satisfied with the result of the meetings here and they want the tent."

When the minister and Mr. Taylor were arraigned before Magistrate House he advised them to settle their dispute peaceably or arbitrate. He told Dr. Lyall that he did not have any case against his brother minister and Mr. Taylor, and they were allowed to go. When Mr. Lyall returned to his mission the tent was gone
